EXPERIENCE

Computer Programmer II — 2024 – Present

Batanes General Hospital

- Architected and implemented web-based systems for healthcare operations
- Conducted training seminars on mobile app development and AJAX
- Developed mobile applications for healthcare service requirements

React · TypeScript · NextJs · Laravel · React Native

Part-Time Instructor — 2023 – 2025

Batanes State College

- Taught Object-Oriented Programming, Data Structures & Algorithms, and Information Security II

Java · Python · OOP · DSA

PROJECTS

English–Ivatan Neural Machine Translator — 2023

Machine Learning · NLP · Low-Resource Language

- Designed and trained a sequence-to-sequence neural machine translation model for the Ivatan language — one of the least-resourced indigenous languages in the Philippines.
- Built and curated a parallel English–Ivatan corpus from community texts, dictionaries, and oral-tradition records.
- Implemented attention-based encoder-decoder architecture achieving competitive BLEU scores despite limited training data.
- Deployed the model as a web-accessible API for community use.

Python · PyTorch · Seq2Seq · Attention Mechanism · NLP · Flask

EDUCATION

BS in Information Technology – Batanes State College — 2019 – 2023

High School – Itbayat National Agricultural High School — 2013 – 2019

Elementary – Itbayat Central School — 2006 – 2013

CERTIFICATIONS

- Web Programming Essentials for IT Professionals
- Civil Service Commission (Professional)
- Narrative Profile Writing Workshop
- Basic Journalism Seminar-Workshop
